han are visit of stagether decay.

and Morgan. Mr. FRENCH presented a petition from Green, relative to the building now occupied by the Corporation as a school-room in the Fifth which was referred to the Committee on

the Public Schools. The CHAIR laid before the Board a communi cation from the Committee of Arrangements of Public Schools, inviting the Board to attend the contemplated procession of school children on Thursday next; which having been read— Mr. Thornley submitted the following joint

Resolved. That the two Boards of the City Council assen ble in joint meeting on Thursday next, at nine o'clock a. m in the City Hall, and thence join the procession of schochlidren on their presentation of a petition to Congress i behalf of the public schools in this city. Which resolution was read three times and

adopted.

The Chair laid before the Board an invitation from Mrs. Hinton and pupils to witness the ceremony of crowning the May Queen, at Island Hall,

on Tuesday next; which having been read, it

was, on motion,

Resolved, That the invitation be accepted. Mr. Towers presented a petition from Messrs. Laury & Stewart, in reference to work done on New Jersey avenue, in the Fourth Ward; which was referred to the Committee on Improvements. Mr. Towers, on leave, introduced an act to take up and relay the gutter on the west side of

7th street west, between I and K streets north; which was read three times and passed. Mr. Towers, on leave, introduced an act to grade and pave the alley in square No. 400;

which was read three times and passed.

The Chair laid before the Board a communication from the Mayor, recommending an additional appropriation for the erection of a watchthe eastern section of the city; which was read and referred to the Committee on Po

Mr. Towers, from the Committee on Police, reported, without amendment, the bill from the Board of Common Council entitled "An act for the relief of E. M. Hamilton;" and it was then read the third time and passed. Also, from the same Committee, reported, with-

out amendment, the bill from the Board of Common Council entitled "An act to regulate and increase the license of Circus companies;" and it was then read the third time and passed.

Mr. Maury presented a petition from P. W. Browning and others, residents on Missouri avenue, for a reservoir in which a pump may be placed to supply the neighborhood with water; which was read and referred to the Committee on Improvements.

Mr. MAURY, from the Committee on Finance reported, without amendment, the bill from the Board of Common Council for the relief of James Nairn; and it was then read the third time and

The CHAIR laid before the Board a communi cation from the Corporation Attorncy, transmitcompliance with a resolution of this Board, his opinion in relation to the power of the Corporation over the public grounds; which havbeen read-

The Board, on motion of Mr. Morgan, resumed the consideration of the resolution from the Board of Common Council to provide for opening 6th street west, south of the canal. The question was then on the amendment

offered by Mr. Morgan on the 19th April, "to request the President of the United States to cause the said street to be opened;" which being taken, it was carried in the affirmative. The resolution, as amended, was then read the

third time and passed. On the question on the third reading the year and nays were taken, and were as follows.

Ygas-Messrs, Dove, Magruder, Bayly, Towers, Borrows, Sweeny, Maury, Wirt, Thornley, Gordon, Morgan, and rench—12. Nav—Mr. Wilson—1. The following bills from the Board of Common

Council were severally taken up, read three times, and passed, viz: An act making an additional appropriation for

extending the sewer under Pennsylvania avenue, in 4th street east. An act for the relief of John Fletcher.

An act for the benefit of public schools.

An act authorizing the extension, grading, and wing of the alley in square No. 373. An act authorizing the taking up and relaying of gutters in the Second Ward. An act to provide for the repair of the gutter

on the south side of G street north. An act making an appropriation for cleaning out the culvert between 9th and 10th streets west, from the south side of Louisiana avenue to

D street north. A joint resolution in relation to square 105: and A joint resolution for joining in the procession of public schools.

The two bills from the Board of Common Council for the relief of Charles Stewart were severally taken up, read twice, and referred to

nittee on Improvements. The bills from the Board of Common Council entitled "An act for the relief of William-H. Prentiss," and "An act for the relief of William H. Taylor," were severally taken up, read twice, and referred to the Committee of Claims.

Mr. Dove, on leave, introduced an act making an appropriation for cleaning gutters and alleys in the First Ward; which was read three times Mr. Maury, ou leave, introduced an act

making an additional appropriation for the contingent expenses of this Corporation; which was read three times and passed. Mr. THORNLEY, from the Committee of Claims. reported, without amendment, the bill from the

Board of Common Council for the relief of William H. Taylor; and it was then read the third Mr. GORDON, from the Committee on the Fire

Department, reported an act for laying the floor and putting up new doors to the Northern Liberty Engine-house; which was read three times

An act for the repair of the apparatus of the several Fire Companies. An act for laying a paved gutter across G street

south, at the intersection of 11th street west, and for other purposes. An act authorizing the curbstones to be set and

the footway paved on the north front of square numbered nine hundred and thirty.

An act making an appropriation for Water

street, in the First Ward. Mr. BAYLY, on leave, introduced a bill entitled "An act making an appropriation for paying William Stewart for cleaning out guttern, &c., in the Second Ward;" which was read three times

On metion of Mr. Wilson, the Board resumed the consideration of the bill from the Board of Common Council authorizing the appointment of an Assistant Surveyor.

The question was then on the amendment offered by Mr. Sweeny on the 3d inst., "to strike out \$600 and insert \$500 as the compensation;" which, being taken, was decided in the negative. The bill was then read the third time and

And then the Board adjourned

Protection from Lightning.

Protection from Lightning.

THE undersigned, being the duly appointed Agent of Sprart's Electrican and Electro-O-Metallusgist Lowr-Show-Room Manufactors, Covington, Kentucky, begs to offer these superior Rods, of Spiral-twisted, Carbonized Annealed Iron, with Zine Protectors, and Electro-positive elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-fitted brass-screw connecting joints, an entire new style of metallic (patented) attachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, (patented,) forming a lock; the whole mounted with a solid platinum silver point, (patented,) twelve inches long, surrounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of discharging the opposite elements of the most fearful thunderstorm, and embrace the entire perfection of science up to the present time; the whole constituting the most magnificent and perfect silent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets, in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but slight results, though placed under the same conditions. In fact, they gather and silently discharge electricity from the atmosphere when you would scarcely suspect any being present.

These improvements being secured by double letters patent, you are hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or who are substituting inferior imitations. All agents duly appointed can show their certificates. Have good rods or none.

CHARLES W. HEYDON,

I do hereby certify that I have app lied various powerful chemical re-agents to Spratt's Patent Points for Lightning Rods, and that the results of these experiments convince me that they will resist the action of atmospheric causes, and that they will resist the action of atmospheric causes, and thereby preserve the extremity sharp—a condition most es-sential to protection against lightning. The re-agents used in the above experiments were a solution of chloride of so-dium, (common salt,) acetic acid, sulphuric acid, and hydro-chloric acid. With the first, there was no action on the metal; with the several acids, there was very slight—a fact sufficient to show that atmospheric influences would have no sensible effect. no sensible effect.

JOHN LECONTE, Prof. of Nat. Phil. et Chem.

University of Ga., October 8, 1850. The Lightning Conductors of Mr. Spratt, offered to me re well calculated to perform the office for which they are ntended. Yours, truly, LEXINGTON, Kr., February 20, 1850.

LEXINGTON, KY., February 20, 1850.

CHICAGO, September 3, 1850.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightning Rods, and that I am of opinion that it is constructed on scientific principles. For combining durability, cheapness, and efficacy, I deen it equal, and I think superior, to any other rod ever offered for my inspection.

Prof. JAS. V. Z. BLANEY.

for my inspection.

Prof. JAS. V. Z. BLANEY.

AUGUSTA, (Ga.) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manu factured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

A. MEANS, Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction, are the best 1 have ever seen. —
It is to be hoped that the use of these Rods may becom general, as an important auxiliary defence against a dange which must be regarded as of no ordinary magnitude, to which all buildings are liable. R. SILIMAN, Jr., Prof. of Chem. in the University of Louisville. LOUISVILLE, January 27, 1851.

All orders left at ANDREW DUFFY'S Stove Manufactory
7th street, will be promptly attended to; or at GEORGI

sep 26—tf J. H. WHITEHURST, Sole Proprietor.

WILMINGTON BOARDING SCHOOL

FOR BOYS.—This institution is situated in one of the healthiest parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from diseases contracted while here.

The course of instruction includes, besides the ordinary English branches, Natural Philosophy, Chonaistry, Physiology, History, Rhetoric, the various branches of Mathematics, and the Latin, Greek, and French Languages. Particular attention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by field operalitors, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

THIRTY-SECOND CONGRESS.

Term commences March 4, 1851, and terminates March 4, 1853. The First Session opens on Monday, December 1, 1851. SENATE.

The Senate consists of two Senators from each State. Since the admission of California, there are thirty-one States, represented by sixty-two Senators. The Senators who held over from March were eighteen Whigs and twenty-three Democrats. Of the twenty-one new Senators, three are yet to be elected from the following States:

Connecticut, (one vacancy)-Democratic legislature just elected.

SENATORS HOLDING OVER AND ELECT SENATORS HOLDING OVER AND ELECT.

Whigs in italic; Democrats in roman—those marked F. S. are Free-soilers or Abolitionists; U., those elected as Union men; S. R., those elected as Southern or State

Messrs. Foote and Davis, of Mississippi, have resigned. Of the members elect, and those holding over, thirty-four are Democrats, twenty-one are Whigs, and four Free-soilers. Of the Freesoilers, Hale and Seward were elected by a union of Whigs and Free-soilers; Sumner and Chase were elected by Democrats and Freesoilers combined. Dodge, (Democrat,) of Wisconsin; Fish, (Whig,) of New York; Foote, (Whig,) of Vermont; and Wade, (Whig,) of Ohio, are also put down by some as Free-soilers.

The House consists of two hundred and thirty-three members and four Territorial delegates. These selegates, however, have no vote. Annexed are the names of the MEMBERS ELECT.

WONDER-WORKING SALVE. WONDER-WORKING SALVE.

Pared by the late Dr. Taller, of this city, acts like a charm, invariably effecting permanent cures in all cases of Wounds, Bruises, Burns, Scalds, Chilblains, Painful Swellings, Biles, Piles, Abacesses, Ulcers, and Sores of all kinds. It is wonderfully efficacious for inflammation or rising of the Frence Breast, or inflammation arising from any cause.

cause.

As a lip salve, and for chapped hands, it has no superior. It will make a perfect cure in a hurry.

The subscriber has used it in his own family with astonishing success, and can recommend it with confidence. And so well assured is the Proprietor of its efficacy, that the purchaser will be at liberty to return what salve is left and his money be refunded in case of failure.
